

**INDEPENDENT AUDITOR'S REPORT**

**To The Members of OFB Tech Private Limited  
Report on the Audit of the Standalone Financial Statements**

**Opinion**

We have audited the accompanying standalone financial statements of OFB Tech Private Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2024, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

**Basis for Opinion**

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

**Information Other than the Financial Statements and Auditor's Report Thereon**

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's report but does not include the financial statements and our auditor's report thereon. The Director's report is expected to be made available to us after the date of this auditor's report.
- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- When we read the Director's Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditor's responsibilities Relating to Other Information'.

### **Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors are also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibility for the Audit of the Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk

of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

### Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b) In our opinion, proper books of account as required by law have been kept by the Company, except for keeping backup on annual basis instead of daily backup of an accounting software

used for maintaining its revenue and purchases records and not complying with the requirement of audit trail as stated in (i)(vi) below.

- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
- d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164(2) of the Act.
- f) The modification relating to the maintenance of accounts and other matters connected therewith, is as stated in paragraph (b) above.
- g) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to standalone financial statements.
- h) In our opinion and to the best of our information and according to the explanations given to us, the Company being a private company, section 197 of the Act related to the managerial remuneration is not applicable.
- i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company does not have any pending litigations which would impact its financial position (Refer Note 32A (d) to the standalone financial statements)
  - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses. (Refer Note 32A(c) to the standalone financial statements)
  - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
  - iv. (a) The Management has represented that, to the best of its knowledge and belief, other than as disclosed in note 48 to the standalone financial statements no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- (b) The Management has represented, that, to the best of its knowledge and belief, other than as disclosed in note 49 to the standalone financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The Company has not declared or paid any dividend during the year and has not proposed final dividend for the year.
- vi. Based on our examination, which included test checks, the Company has used accounting softwares for maintaining its books of account for the year ended March 31, 2024 which has a feature of recording audit trail (edit log) facility for all relevant transactions recorded in the softwares wherein:
- in respect of an accounting software audit trail feature did not operate from April 1, 2023 till November 8, 2023; the audit trail feature has operated throughout the remaining period for all relevant transactions recorded in the software. Further, during the course of our audit subject to above, we did not come across any instance of audit trail feature being tampered with, in respect of accounting software's for the period for which the audit trail feature was operating; and
  - in respect of another accounting software used for maintaining the revenue records and the purchase records, audit trail feature was not enabled at the database level to log any direct data changes, and the software did not have a feature to log the enabling/ disabling of the audit trail feature at the application level; accordingly we are unable to comment whether the audit trail feature was enabled and operated throughout the year for all relevant transactions recorded in the software and whether there were any instances of the audit trail feature been tampered with (refer note 58 of the standalone financial statements).

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the year ended March 31, 2024.

**Report on the Internal Financial Controls with reference to standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls with reference to standalone financial statements of OFB Tech Private Limited ("the Company") as of March 31, 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls with reference to standalone financial statements based on the internal control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

**Meaning of Internal Financial Controls with reference to standalone financial statements**

A Company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial controls with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the standalone financial statements.

**Inherent Limitations of Internal Financial Controls with reference to standalone financial statements**

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has maintained, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as of March 31, 2024, based on the criteria for internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

For such allotment of shares, the Company has complied with the requirements of Section 42 and 62 of the Companies Act, 2013, and the funds raised have been, prima facie, applied by the Company during the year for the purposes for which the funds were raised. The Company has not made any preferential allotment or private placement of (fully or partly or optionally) convertible debentures during the year.
- (xi) (a) To the best of our knowledge, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- (b) To the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
- (c) As represented to us by the Management, there were no whistle blower complaints received by the Company during the year.
- (xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- (xiii) In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements etc. as required by the applicable accounting standards.
- (xiv) (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- (b) We have considered, the internal audit reports issued to the Company during the year and covering the period upto March 2024.
- (xv) In our opinion during the year the Company has not entered into any non-cash transactions with any of its directors or directors of it's subsidiary company or persons connected with such directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.

- (xvi) (a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clauses (xvi)(a), (b) and (c) of the Order is not applicable.
- (b) The Group does not have any Core Investment Company as part of the group and accordingly reporting under clause (xvi)(d) of the Order is not applicable.
- (xvii) The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors of the Company during the year.
- (xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) The Company has fully spent the required amount towards Corporate Social Responsibility (CSR) and there are no unspent CSR amount for the year requiring a transfer to a Fund specified in Schedule VII to the Companies Act or special account in compliance with the provision of sub-section (6) of section 135 of the said Act. Accordingly, reporting under clause (xx) of the Order is not applicable for the year.

Notes to standalone financial statements for the year ended 31 March 2024  
(All amounts are in Rs. Lakhs, unless otherwise stated)

**1 Corporate Information**

OFB Tech Private Limited (the 'Company') is a private limited company incorporated in India on 24 August 2015 under the provisions of the Companies Act, 2013. The Company is engaged in trading and manufacturing of products such as steel, cement, polymer etc. and selling mainly to small and medium enterprise ("SME") centric B2B business entities. The Company has its registered office at New Delhi and its corporate office at Gurugram, Haryana.

**2 Material accounting policies**

**2.1 Basis of preparation and presentation of standalone financial statements**

**Statement of Compliance**

The standalone financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

**Basis of Preparation**

The standalone financial statements have been prepared on accrual and going concern basis under the historical cost convention except for certain class of financial assets/ liabilities, share based payments and net liability for defined benefit plans that are measured at fair value. The accounting policies have been consistently applied by the Company unless otherwise stated.

**Functional and Presentation Currency**

The standalone financial statements have been prepared and presented in Indian Rupees (Rs), which is also the Company's functional currency. All amounts in the financial statement and accompanying notes are presented in 'Lakhs' and have been rounded-off to two decimal places unless stated otherwise.

**Fair value measurement**

The Company measures financial instruments at fair value at each reporting date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

Certain accounting policies and disclosures of the Company require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values.

For financial reporting purposes, fair value measurements are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

## 2.2 Use of estimates

The preparation of these standalone financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of asset and liabilities, disclosures relating to contingent liabilities as at the date of the standalone financial statements and the reported amounts of income and expense for the period presented.

Estimates and underlying assumptions are continually evaluated and reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which estimates are revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

### Critical accounting estimates and judgements

Information about significant areas of estimation and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the standalone financial statements are included in the following areas:

- **Useful lives of intangible assets:** The Company amortises intangible assets on a straight-line basis over estimated useful lives of the assets. The useful life is estimated based on a number of factors including the effects of obsolescence, demand, competition and other economic factors such as the stability of the industry and known technological advances and the level of maintenance expenditures required to obtain the expected future cash flows from the assets. The estimated useful life is reviewed at least annually.
- **Expected credit losses on financial assets:** The impairment provisions of financial assets are based on assumptions about risk of default and expected timing of collection. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's history of collections, customer's creditworthiness, existing market conditions as well as forward looking estimates at the end of each reporting period. Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.
- **Impairment testing:** The Company has reviewed its carrying value of long term investments in equity shares as disclosed in note- 5A of standalone financial statements at the end of each reporting period, for possible impairment if there are events or changes in circumstances that indicate that carrying amount of assets may not be recoverable. If the recoverable value, which is based upon economic circumstances and future plan is less than its carrying amount, the impairment loss is accounted.

**Impairment of goodwill:** Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a Cash Generating Unit (CGUs) is less than its carrying amount. For the impairment test, goodwill is allocated to the CGU or groups of CGUs which benefit from the synergies of the acquisition and which represent the lowest level at which goodwill is monitored for internal management purposes. The recoverable amount of CGUs is determined based on higher of value-in-use and fair value less cost to sell. Key assumptions in the cash flow projections are prepared based on current economic conditions and comprises estimated long term growth rates, weighted average cost of capital and estimated operating margins.

- **Business Combination:** Intangible assets acquired in a business combination and recognised separately from goodwill are initially recognised at their fair value on the acquisition date (which is regarded as their cost). Subsequent to initial recognition, intangible assets acquired in a business combination are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately. Further details about business combinations done during the previous year are given in note 50A & 50B.
- **Compound financial instrument:** The Company had issued Compulsorily Convertible Preference Shares and Optionally Convertible Preference Shares on private placement basis which has a fixed to fixed conversion terms. The Company has analysed the conversion terms related to timing of conversion, future cash flows along with other factors and arrived at equity component of these instruments. There is no change in valuation of these compound financial instruments as at the current and previous year end.

**2.4 Inventories**

Inventories (including goods in transit) are valued at the lower of cost and net realisable value after providing for obsolescence and other losses, when considered necessary. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. Cost of inventory comprises all cost of purchase and other cost incurred in bringing the inventories to the present location and condition. In determining cost, FIFO (First in first out) method is used.

**2.5 Property, Plant and Equipment**

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use.

**Depreciation Methods, estimated useful lives and residual value**

Depreciation commences when the assets are ready for their intended use. Depreciation on property, plant and equipment have been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013. The life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.:

Type of Asset	Life (in years)
Computers	3
Network Equipment	6
Office equipment	5
Furniture and fixtures	10
Plant and Machinery	15

Depreciation is provided on a pro-rata basis i.e. from the date on which asset is ready for use. Leasehold improvements are depreciated over the lease term or useful life, whichever is lower.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Amortisation of leased assets are over the lease period or useful life as above, whichever is lower.

## 2.6 Intangible assets including Intangible assets under development

### (a) Technology related development cost

Technology related development costs incurred by the Company are measured at cost less accumulated amortization and accumulated impairment losses, if any. Cost includes expenses incurred during the application development stage. The costs related to planning and post implementation phases are expensed as incurred.

Expenditure on research activities are recognized in the Statement of Profit and Loss as incurred. Development activities relate to production of new or substantially improved products and processes. Development expenditure is capitalized only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use or sell the asset. The expenditure capitalized includes direct labour and overhead costs that are directly attributable to preparing the asset for its intended use.

Technology related development assets that are under development and are not yet available for use are tested annually for impairment.

### (b) Web design & development

Web design & development cost incurred by the Company are measured at cost less accumulated amortization and accumulated impairment losses, if any. Cost includes expenses incurred during the application development stage and graphical design and content development. The Costs related to planning and post implementation phases are expensed as incurred.

Development activities relate to production of new web pages, domain name purchase, designing the appearance of web pages and creating, purchasing, preparing and uploading information, either textual or graphical in nature, on the web site prior to the web site becoming available for use. Development expenditure is capitalized only if development costs can be measured reliably. The expenditure capitalized includes direct labour and overhead costs that are directly attributable to preparing the asset for its intended use.

### (c) Software

Software acquired by the Company are measured at cost less accumulated amortization and accumulated impairment losses, if any. Cost includes any directly attributable expenses necessary to make the asset ready for use.

" Amortisation of Intangible Assets" Amortization expense on intangible assets (technology related development, web design & development cost and software) is provided on straight line method based on management's estimated useful life of 5 years. Amortization expense is charged on pro-rata basis for assets purchased / sold during the year. The appropriateness of amortization period and the amortization method is reviewed at each financial year end.

## 2.7 Leases

### Where the Company is a lessor

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

### Where the Company is a lessee

For the lease contracts where the Company is a lessee, it recognizes right-of-use asset and lease liability.

### Right-of-use assets:

At the commencement of lease, right-of-use asset is recognized at cost. Cost comprises of initial measurement of lease liability, lease payments made before commencement date less lease incentives, initial direct costs incurred by the Company and estimate of any dismantling cost.

Right-of-use assets are amortized over the lease term as below:

Right-of-use assets	Estimated Useful Life (in no. of years)
Right-of-use buildings	2 - 10

(All amounts are in Rs. Lakhs, unless otherwise stated)

The right-of-use assets are subsequently measured at cost less accumulated depreciation and any accumulated impairment. Adjustment is made for any remeasurement of lease liability.

**Lease liability:**

At the commencement of lease the Company measures the lease liability at the present value of lease payments not paid at commencement date. The lease payments are discounted using the Company's incremental borrowing rate.

Lease liability are subsequently increased by interest on the lease liability and reduced by the lease payments. It is adjusted to reflect any reassessment or lease modifications.

**Short term lease and low value leases:**

The Company does not recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low value assets. The Company recognises the lease payments associated with these leases as an expense on an accrual basis over the lease term based on the terms of the lease agreement.

**2.8 Impairment of tangible and intangible assets**

The Company assesses at each Balance Sheet date whether there is any indication that an asset may be impaired. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. An impairment loss is charged to the Statement of Profit and Loss in the year in which the asset is identified as impaired. When there is indication that an impairment loss recognized for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognized in the Statement of Profit and Loss.

**Goodwill :** Cash generating units to which goodwill is allocated are tested for impairment annually at each balance sheet date, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to that unit and then to the other assets of the unit pro rata on the basis of carrying amount of each asset in the unit. Goodwill impairment loss recognised is not reversed in subsequent period.

**2.9 Employee Benefits**

**(a) Short term employee benefits**

Liabilities for wages and salaries, including nonmonetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related services are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

**(b) Other long-term employee benefits**

These liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related services. They are therefore measured as the present value of expected future payments to be made in respect of services provided by the employees upto the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligations. Re-measurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer the settlement for at least 12 months after the reporting period, regardless of when the actual settlement is expected to occur.

**(c) Post-employment employee benefits**

The Company operates the following post-employment schemes:

**(i) Defined contribution plans**

The Company's contribution to provident fund are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made at the determined rate as and when services are rendered by the employees. The Company's contribution is recognized as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service.

**(ii) Defined benefit plans**

The Company's Gratuity plan is a defined benefit plan. The present value of the obligation under defined benefit plans is determined based on actuarial valuation using the Projected Unit Credit Method.

The obligation is measured at the present value of the estimated future cash flows using a discount rate based on the market yield on government securities of a maturity period equivalent to the weighted average maturity profile of the defined benefit obligations at the Balance Sheet date.

Remeasurement, comprising actuarial gains and losses is recognised in other comprehensive income and is reflected in retained earnings and the same is not eligible to be reclassified to profit or loss.

Defined benefit costs comprising current service cost, past service cost and gains or losses on settlements are recognised in the Statement of Profit and Loss as employee benefit expenses. Interest cost implicit in defined benefit employee cost is recognised in the Statement of Profit and Loss under employee benefit expenses. Gains or losses on settlement of any defined benefit plan are recognised when the settlement occurs. Past service cost is recognised as expense at the earlier of the plan amendment or curtailment and when the Company recognises related restructuring costs or termination benefits.

**(d) Share Based Payments:**

Equity-settled share based payments to employees are measured at the fair value of the equity instruments at the grant date in accordance with Ind AS 102, 'Share based payments'. Details regarding the determination of the fair value of equity-settled share-based transactions are set out in note 40.

The fair value determined at the grant date of the equity-settled share based payments is expensed over the vesting period using the graded vesting method, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Company revives its estimate of the number of equity instruments expected to vest. The impact of the original estimates, if any, is recognized in the profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the "Share Option Outstanding Account" in Other Equity.

## 2.10 Investment in subsidiaries

The investment in subsidiaries are carried at cost as per Ind AS 27. Investment carried at cost is tested for impairment as per Ind AS 36. An investor, regardless of the nature of its involvement with an entity (the investee), shall determine whether it is a parent by assessing whether it controls the investee. An investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Thus, an investor controls an investee if and only if the investor has all the following:

- (a) power over the investee;
- (b) exposure, or rights, to variable returns from its involvement with the investee and
- (c) the ability to use its power over the investee to affect the amount of the investor's returns

On disposal of investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss.

When the Company loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as difference between (i) the aggregate of the fair value of consideration received and the fair value of any retained interest; and (ii) the previous carrying amount of the investment in subsidiary.

The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under Ind AS 109.

## 2.11 Foreign Currency transactions

Foreign currency transactions are recorded at the rates of exchange prevailing on the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the re-measurement of monetary items denominated in foreign currency translated into rupees at year-end exchange rates are recognised in Statement of Profit and Loss.

Exchange differences arising on settlement / restatement of foreign currency monetary assets and liabilities are recognised as income or expense in the Statement of Profit and Loss.

Non-monetary items are not retranslated at year-end and are measured at historical cost (translated using the exchange rates at the transaction date), except for non-monetary items measured at fair value which are translated using the exchange rates at the date when fair value was determined.

## 2.12 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

### Initial recognition:

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through Statement of Profit and Loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in Statement of Profit and Loss.

### Subsequent measurement:

- (a) **Financial assets carried at amortised cost:** A financial asset is subsequently measured at amortised cost if the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- (b) **Financial assets carried at fair value through other comprehensive income (FVTOCI):** A financial asset is subsequently measured at fair value through other comprehensive income if the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- (c) **Financial assets carried at fair value through profit or loss (FVTPL):** All other financial assets are subsequently measured at fair value.

- (d) **Financial liabilities at amortised cost:** Financial liabilities includes interest bearing loans and borrowings which are subsequently measured at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

**Derecognition of financial assets:** The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party or the transfer qualified for derecognition under Ind AS 109.

**Derecognition of financial liabilities:** The Company derecognizes a financial liability when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

**Impairment of financial assets:** The Company recognizes loss allowances using the Expected Credit Loss (ECL) for the financial assets which are not measured at fair value through profit or loss. In relation to loss allowance for financial assets (excluding trade receivables), ECL's are measured at an amount equal to 12-months ECL, unless there has been significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 115, the Company always measures the loss allowance at an amount equal to lifetime ECL.

#### 2.13 Derivative financial instruments

The Company enters into derivative financial instruments to manage its exposure to interest rate risk and foreign exchange rate risk. Derivatives include foreign exchange forward contracts, commodity forward contracts, interest rate swaps and cross currency interest rate swaps. Derivatives are initially recognised at fair value at the date of a derivative contract is entered into and are subsequently remeasured to their fair value at each balance sheet date. The resulting gain/ loss is recognised in the statement of profit and loss immediately unless the derivative is designated and is effective as a hedging instrument, in which event the timing of the recognition in the statement of profit and loss depends on the nature of the hedge relationship. The Company designates certain derivatives as hedges of highly probable forecast transactions (cash flow hedges). A derivative with a positive fair value is recognised as a financial asset whereas a derivative with a negative fair value is recognised as a financial liability.

#### 2.14 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares net of treasury shares outstanding during the period. Equity shares that will be issued upon the conversion of a mandatorily convertible instrument are included in the calculation of basic earnings per share.

For calculating diluted earnings per share, the net profit attributable to equity shareholders and the weighted average number of shares outstanding are adjusted for the effect of all dilutive potential equity shares.

#### 2.15 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

#### 2.16 Cash Flow Statement

Cash Flows are reported using indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals and accruals of past or future operating cash receipts and payments and item of income and expenses associated with investing or financing cash flows. The cash flows from operating, investing, and financing activities of the company are segregated.

## 2.17 Taxation

Income tax expense represents the sum of current tax and deferred tax.

### Current tax

The current tax expense or credit for the year is the tax payable on the current period taxable income based on the applicable enacted income tax rate in accordance with the Income Tax Act, 1961 adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, items that are never taxable / deductible and unused tax losses / tax credits.

Current tax assets and tax liabilities are offset where the entity has a legal enforceable right to offset and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

### Deferred tax

Deferred tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their corresponding carrying amounts in the standalone financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction (other than in a business combination) that effects neither accounting profit nor taxable profit. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted at the balance sheet date and are expected to apply when the related deferred income tax asset is realised, or the deferred tax liability is settled. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Current and deferred tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in Other Comprehensive Income (OCI) or directly in Equity, in which case, the tax is also recognised in OCI or Equity respectively.

## 2.18 Provisions and Contingent Liabilities

Provisions are recognised when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligations at the balance sheet date and are not discounted to its present value. These are reviewed at each Balance Sheet date and adjusted to reflect the best current estimate.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligations or a reliable estimate of the amount cannot be made.

- 2.19 Segment information: The Company determines reportable segment based on information reported to the Chief Operating Decision Maker (CODM) for the purposes of resource allocation and assessment of segmental performance. The CODM evaluates the company performance and allocates resources based on an analysis of various performance indicators by business segments. The accounting principles used in the preparation of the standalone financial statements are consistently applied to record revenue and expenditure in individual segments (refer note 35).

## 2.20 Operating Cycle/ Current and Non-Current Classification

Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current/non-current classification of assets and liabilities.

The Company presents assets and liabilities in the Balance Sheet based on current/ non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle.
- It is held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or Cash Equivalent.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle.
- It is held primarily for the purpose of trading.
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as noncurrent. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

## 2.21 Ordinary/ Treasury Shares

Ordinary shares are classified as Equity when the Company has an unconditional right to avoid delivery of cash or another financial asset, that is, when the dividend and repayment of capital are at the sole and absolute discretion of the Company and there is no contractual obligation whatsoever to that effect.

When the Company purchases its ordinary shares through Ofbusiness Employee Welfare Trust, they are treated as treasury shares, and the consideration paid is deducted from the Equity. When the treasury shares are subsequently re-issued, any difference between its carrying amount and consideration received is recognised in share-based-payment reserve.

## 2.22 Adoption of new and revised Indian Accounting Standards (Ind As)

Ministry of corporate affairs (MCA) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. MCA has not notified any new standards or amendment to the existing standards applicable to the Company as at March 31, 2024.

In the current year, the Company has applied the below amendments to Ind ASs that are effective for an annual period that begins on or after 1 April 2023.

(i) The Company has adopted the amendments to Ind AS 1 Presentation of standalone financial statements for the first time in the current year. The amendments change the requirements in Ind AS 1 with regard to disclosure of accounting policies. The amendments replace all instances of the term 'significant accounting policies' with 'material accounting policy information'. Accounting policy information is material if, when considered together with other information included in an entity's standalone financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose standalone financial statements make on the basis of those standalone financial statements.

The supporting paragraphs in Ind AS 1 are also amended to clarify that accounting policy information that relates to immaterial transactions, other events or conditions is immaterial and need not be disclosed. Accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material.

(ii) The Company has adopted the amendments to Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors - Definition of Accounting Estimates for the first time in the current year. The amendments replace the definition of a change in accounting estimates with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in standalone financial statements that are subject to measurement uncertainty". The definition of a change in accounting estimates was deleted.

The above amendments had no impact on these Standalone Financial Statement.

Impairment testing of goodwill:

The carrying amount of goodwill with indefinite useful life that arose on acquisition of itemised assets of Goignut Trading India Private Limited and has been tested against the potential of respective cash generating unit (CGU).

The Company evaluates impairment, if CGUs have identified impairment indicators. Impairment is recognised, when the carrying amount of CGUs including goodwill, exceeds the estimated recoverable amount of CGU. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to respective the CGU. CGUs which have goodwill allocated to them are tested for impairment at least annually or more frequently if there are any indications that the goodwill may be impaired. The recoverable value of CGU which has been determined from a value in use calculation is estimated based on the discounted cash flows method.

Key assumptions for the value in use calculation are those regarding weighted average cost of capital; average annual and terminal growth rate. Other assumption includes expected changes to selling prices, raw material costs, demand and exchange rates. Changes in selling prices, raw material costs, exchange rates and demand are based on expectations of future changes in the market based on external market sources.

Significant Cash Generating Units (CGU)

The Company has identified only one reportable segments, i.e. Agri Processing. The goodwill and indefinite-life intangible assets acquired through business combinations have been allocated to CGU 'Agri Processing'. The carrying amount of goodwill is as under:

Particular	As at 31 March 2024	As at 31 March 2023
Goodwill	674.34	674.34
Total	674.34	674.34

The recoverable amount of above CGU has been calculated based on its value in use, estimated as the present value of projected future cash flows.

Following key assumptions were considered while performing Impairment testing

Particular	As at 31 March 2024	As at 31 March 2023
Average Annual Growth rate for 5 years	20%	20%
Terminal Growth rate	3%	3%
Weighted Average Cost of Capital % (WACC) post tax (Discount rate)	17.50%	17.50%

The projections cover a period of five years, as the Company believes this to be the most appropriate timescale over which to review and consider annual performances before applying a terminal value multiple to the final year cash flows. The growth rates and segmental margins used to estimate cash flows for the first five years are based on past performance, and on the Company's five-year strategic plan.

The Company has performed sensitivity analysis and has concluded that there are no reasonably possible changes to key assumptions that would cause the carrying amount of a CGU to exceed its recoverable amount.

The estimated recoverable amount of CGU exceeded its carrying amount and accordingly, no impairment was recognized for goodwill as at 31st March 2024.

**39. Asset held for Sale (refer note no. 14)**

On 23 June 2017, the Company had entered into an agreement to purchase a flat from M/s Morpheus Developers Private Limited ("Seller"), who had acquired title of the flat in group housing complex known as "Morpheus Pratiksha". The seller had agreed to transfer this flat to the Company in lieu of trade receivables of Rs. 26.03 lakhs outstanding from the seller. As per the terms of the agreement, the basic sale price of the flat was Rs. 32.76 lakhs and the Company was required to pay the balance amount to the seller, the flat is pending registration in favour of the Company. The seller had transferred the clear title of the said flat to the Company via NOC/Transfer letter dated 15 December 2017, pending execution of sale deed.

The Company had also entered in an agreement to sell dated 4 April 2018, with an individual ("Buyer") to sell the above said flat for Rs. 32 lakhs and the buyer had paid Rs. 11.80 lakhs as earnest money. The Management has accordingly disclosed the above property as asset held for sale in the books of account. The fair value of the flat is Rs. 34.00 lakhs as on 31 March 2024 and as on 31 March 2023.

**40. Equity Stock based payments**

**a. Employee stock based compensation**

The excess of value of underlying equity shares as of the date of the grant of options over the exercise price of the options given to employees and the employees of subsidiary Company under the employee stock option plan amortized over the vesting period using graded vesting method.

**Employee Stock Based Payments**

The Company has adopted Ind AS 102 Share-based Payments". The standard is applicable for all employee share-based payment plans, and also applies to transfers of stock options of the parent of the enterprise to the employees of the enterprise.

Stock compensation expense under the Fair Value Method has been determined based on fair value of the stock options. The fair value of stock options was determined using the Black Scholes option pricing model with the following assumptions:

**b. Employee Stock Option Plan ("ESOP")**

**Ofbusiness Stock Option Plan, 2016**

OFB Tech Private Limited ("OFB"), the holding Company, has a Ofbusiness Stock Options Plan, 2016 ("ESOP 2016 Plan"), which was duly approved by the Shareholder of the OFB in the Extraordinary General Meeting held on 8 April 2016. ESOP 2016 Plan is administered by Compensation Committee and in the absence of such Committee, the Board of Directors of OFB ensures the administration of the ESOP 2016 Plan. The stock options granted are categorized as equity settled and have a graded vesting.

During the year, certain employees of the Company were transferred to/from the other subsidiaries. To align the interest of employees, it was determined that transferred employees, may continue to participate in the ESOP 2016 Plan of the Company and accordingly they are entitled to equity shares of the Company.

#### 41. Financial Risk Management Objective And Policies

The Company's principal financial liabilities comprises of trade payables, lease liabilities and financial assets includes investments, trade receivables, cash and cash equivalents, etc. that derive directly from its operations. The Company financial risk management is an integral part of Business plan and execution of business strategies. The Company is exposed to market risk, credit risk and liquidity risk. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below.

##### (i) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans, borrowings, and deposits.

##### (ii) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The company is exposed to foreign currency risk on certain transactions that are denominated in a currency other than company's functional currency, hence exposure to exchange rate fluctuations arises. The risk is that the functional currency value of cash flows will vary as a result of movements in exchange rates.

The carrying amounts of the Company's net foreign currency exposure (net of forward contracts) denominated monetary assets and monetary liabilities at the end of the reporting period as follows:

Particulars	As at 31 March 2024		As at 31 March 2023	
	USD	AED	USD	EURO
Trade payables	39.40	-	-	-
Advance from Customers	0.07	-	-	-
Trade receivables	-	-	6.15	0.08
Advance to suppliers	15.61	1.30	9.28	-

Net exposure (INR in Lakhs)	1,993.98	28.68	1,262.90	7.02

##### Sensitivity analysis

A strengthening of the Indian Rupee, as indicated below, against USD and Euro would have increased/(decreased) profit or loss (before tax) by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the company considered to be reasonably possible at the end of the reporting year. The analysis assumes that all other variables, in particular interest rates, remain constant.

**(iii) Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's short-term debt

**Interest risk exposure**

The exposure of the Company's borrowings to interest rate changes at the end of the reporting period are as follows:

Particulars	As at 31 March 2024	As at 31 March 2023
Variable rate borrowings	1,22,321.11	1,12,809.28
<b>Total</b>	<b>1,22,321.11</b>	<b>1,12,809.28</b>

**Sensitivity**

Variable interest rate loans are exposed to interest rate risk, the impact on profit or loss before tax may be as follows :

Particulars	As at 31 March 2024	As at 31 March 2023
Interest rate - increased by 0.5%	611.61	564.05
Interest rate - decreased by 0.5%	(611.61)	(564.05)

**(iv) Credit risk**

Credit risk arises from the possibility that the counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company is exposed to credit risk from its operating activities (primarily trade receivables). To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial conditions, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. The Company considers the probability of default upon initial recognition of assets and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period.

#### (ii) Fair value hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are (a) recognized and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

#### Measurement of fair values

The different levels of fair value have been defined below:

**Level 1:** Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and traded bonds that have quoted price.

**Level 2:** The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. The fair value of financial assets and liabilities included in Level 3 is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes of similar instruments. This level includes derivative MTM assets/liabilities.

There have been no transfers in either direction for the years ended 31 March 2024 and 31 March 2023.

Fair value of the Company's financial assets and financial liabilities that are not measured at fair value (but fair value disclosures are required)

Except as detailed out in the following table, the management considers that the carrying amounts of financial assets and financial liabilities recognised in the financial statements approximate their fair values.

Particulars	Level	As at 31 March 2024		As at March 31, 2023

50B. During the year ended 31 March 2023, the Company completed on 11th April 2022 the acquisition of plant and machinery of Indo Bhutan Construction Solutions Private Limited for a consideration amounting to Rs. 2,485 Lakhs (the "Purchase consideration"). The management applied the optional concentration test, under Ind AS 103, and concluded that the acquired set of activities and assets is not a business because substantially all the fair value of the gross assets acquired is concentrated in plant and machinery, with similar risk characteristics. Accordingly, this transaction has been accounted for as an asset acquisition. The management identified and recognized the individual identifiable assets acquired; and allocated the purchase consideration to the individual identifiable assets on the basis of their relative fair values at the date of acquisition. (read with note no 33D)
